Webinar: Technology and Autism: What are the possibilities?

This interactive webinar will provide a research-based overview on the use of tele-practice for children with/suspected of having autism with a focus on the use of technology for timely assessments and diagnosis in families' homes and community settings.

When: Thursday June 15th 3-4 pm PST

Zoom link: <https://uvic.zoom.us/j/82074884484>

Presenter:

Dr. Rebecca Sutherland is a speech pathologist, lecturer and researcher at the University of Sydney, Australia and holds adjunct roles with the University of Canberra and the Children's Hospital at Westmead AU. She was awarded a PhD from Griffith University in 2020, which focused on telehealth for diverse learners, including children with autism. Rebecca's research and clinical interests include autism, literacy and telehealth.
